TALL CORN GLADS AND
SUPERB PEONIES

TO MY CUSTOMERS AND ALL FLOWER LOVERS: Greetings for 1957, and sincere wishes that this may be your best and most successful year with flowers. Let us hope that there will be a greater abundance of rain than last year. Yet, in spite of shortage of water, I never grew a finer crop of flowers and bulbs. Those who buy from me this year will receive wonderful stock. My offerings of both glads and peonies are very select, and have proved themselves of outstanding merit. Most of them have been blue ribbon winners in the shows. May you take many top prizes this summer in the shows! On grounds of health limitations I am unable to offer very much in the wholesale bracket.

Sincerely yours, H. E. Morrow.

IMPORTANT INFORMATION

Read carefully before making out your order.
Take close notice of item No. 3.

1. My bulbs are doubly State Inspected, once in the field, and again in storage.
2. All orders accepted subject to stock and prior sales.
3. If your order is for less than \$3.00 please enclose an additional 25¢ for shipping charges.
4. I guarantee the stock which I ship to be true to name, and if at the end of the season it has proved not to be, let me know and I will replace. My stock is also guaranteed to be free of disease, and healthy.
5. Cash with order, please, or write for special arrangement.
6. Satisfaction and generosity are my guiding principles.
7. I list my bulbs in three sizes, Large, Medium, Small, indicated by the three letters, L, M, S. "BLBTS" means that bulblets are available.
8. Explanation of the numbers which immediately follow the variety descriptions:
 - (1) The name is that of the originator.
 - (2) The first number, always with three digits, designates the size of the florets.
 - (3) The second number designates the year in which the variety was introduced.
 - (4) The third and last number indicates the number of days from date of planting needed on the average for the bulbs to produce bloom.

- (5) For example - ABU HASSAN reads as follows: "(Holland) 378-47-77. Interpreted, the variety was originated in Holland. The 378 means that the flower is of medium size. The 47 means it was introduced in 1947, the 77 means that under right conditions the Abu Hassan bulbs will come to bloom 77 days after planting.
- (6) Explanation of the number indicating sizes: Glad blooms are classified in five sizes. The first digit in the size numbers indicate these sizes. If the first digit is one (1) the flowers will measure less than $2\frac{1}{2}$ inches, and are known as minatures. If the first digit is two (2) the florets measure $2\frac{1}{2}$ inches to $3\frac{1}{4}$, and are called "small". If the first digit is three (3) the floret measures $3\frac{1}{4}$ to $4\frac{3}{8}$ inches and are called "medium". If the first digit is four (4) the flower measures $4\frac{1}{2}$ inches to $5\frac{3}{8}$ and is called "large". If the first digit is five (5) the flower measures $5\frac{1}{2}$ inches and larger, and is called "giant". The last two digits indicate colors, which are stated in the variety descriptions.

SUPERB PEONIES

* * * * *

For a number of years I have been deeply interested in the growing of select peonies as an early flower preceeding the blooming of the glads. I am now in position to offer a few superb varieties which have made enviable records. There are perhaps 2000 varieties of peonies listed in the various catalogues. I am offering the public about 65 varieties, very carefully selected from these, many of the newer introductions. While some of these are priced a bit higher than the "run of the mill," they are well worth the extra cost. You have something to be proud of when you own these varieties that I am offering you. My root divisions are unexcelled, bearing from three to five strong eyes, and often more. Many of these are grand champions, and have been in the famous "Court of Honor", the highest award in the peony world. Every variety offered is superb, tried and proven top performers. You buy these with confidence and certainty that you will have something to be proud of.
